# ABOUT THE DATASET

- Customer Personality Analysis is a detailed analysis of a company's ideal customers.
- Dataset has 2240 data points and 29 attributes
- It can be categorized into,
  - Customer's information
  - Products
  - Place
  - Promotioin

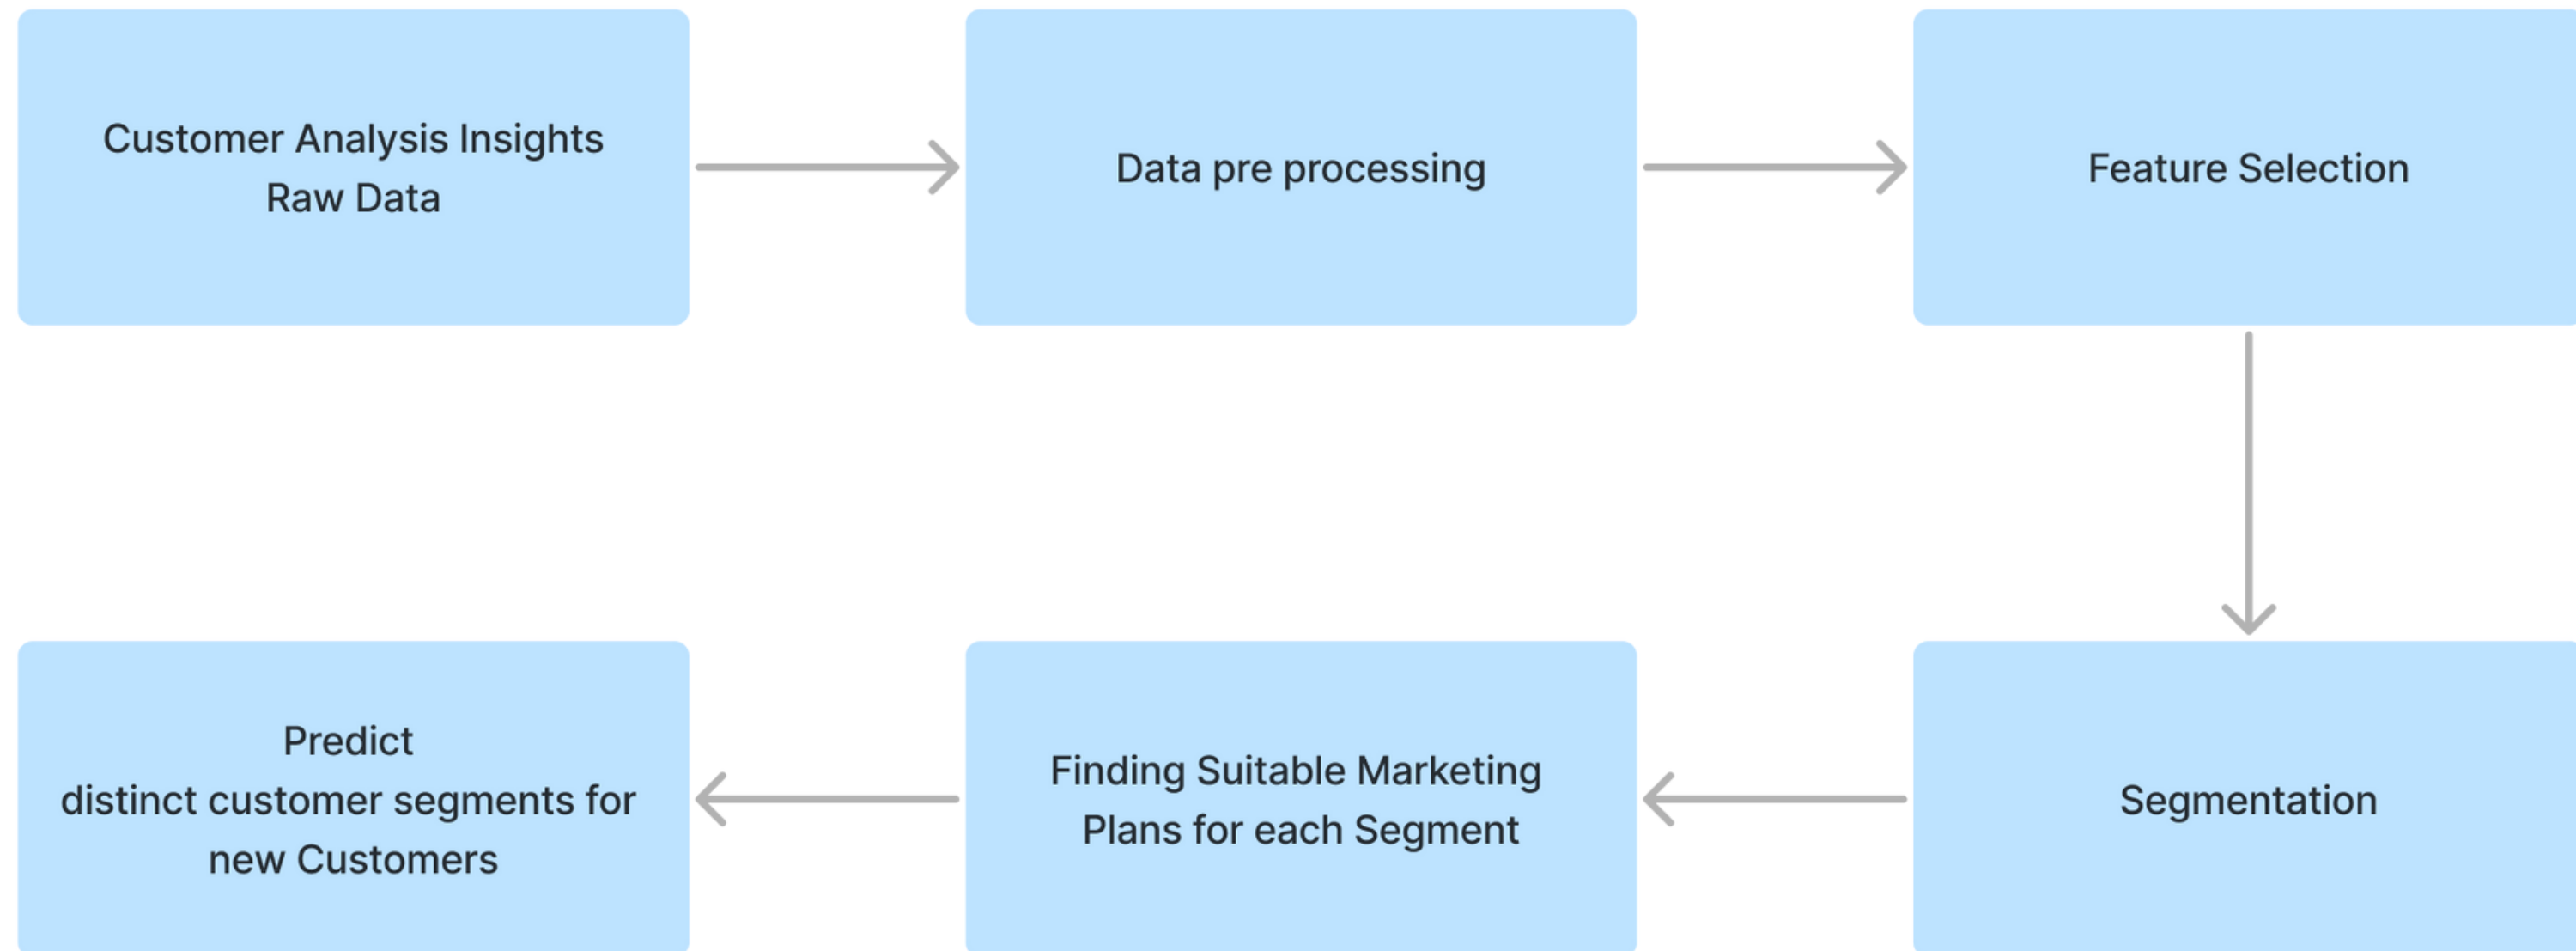

# RESEARCH IDEA

- Identifying how marketing strategies can be optimized to effectively target and engage distinct customer segments.
  - What clustering techniques can be employed to accurately identify distinct customer segments based on relevant demographic, income, ... factors?
  - Predicting the customer segment to which a new customer belongs to devise tailored marketing strategies.

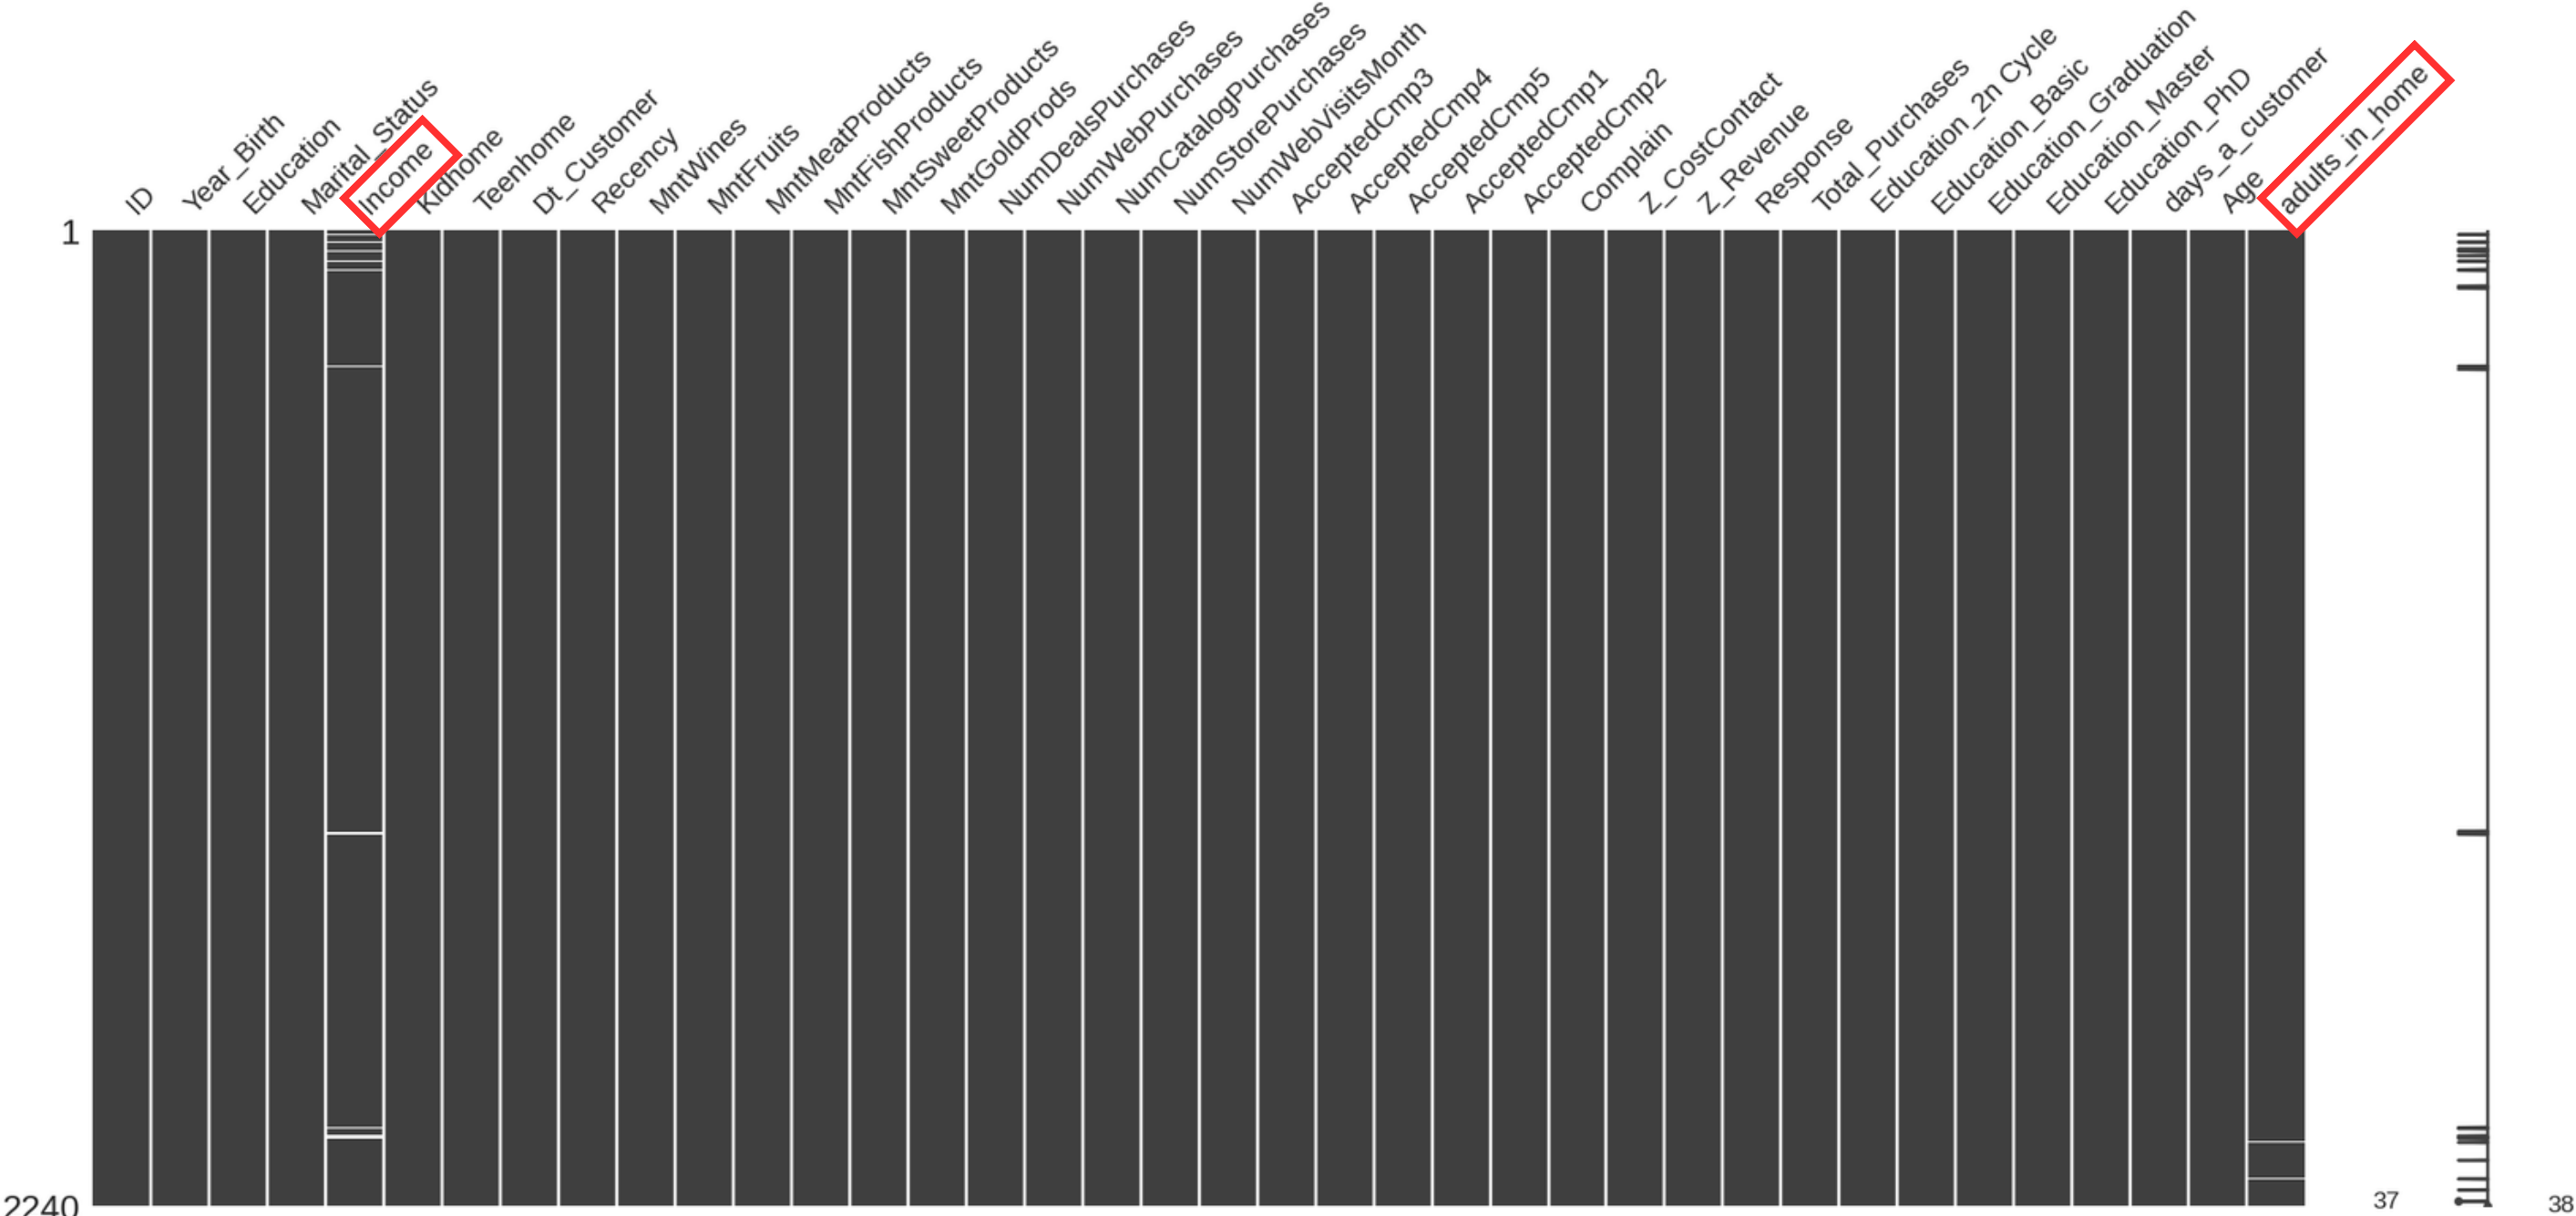

# RESEARCH PLAN

# DATA PREPROCESSING

## HANDLING MISSING VALUES

# DATA PREPROCESSING

## Handling missing values in Income

# DATA PREPROCESSING

## OUTLIER DETECTION

# DATA PREPROCESSING

## FEATURE CREATION AND REMOVAL

### Added

- Age (Based on the latest year in the dataset)
- Spent (Total spending on the products)
- Children (Merged kids and teenagers)
- Adults
- Family Size
- Days\_a\_customer (Based on the latest date in the dataset)
- Total\_Purchases
- Income\_per\_person (Income divided by family size)

### Removed

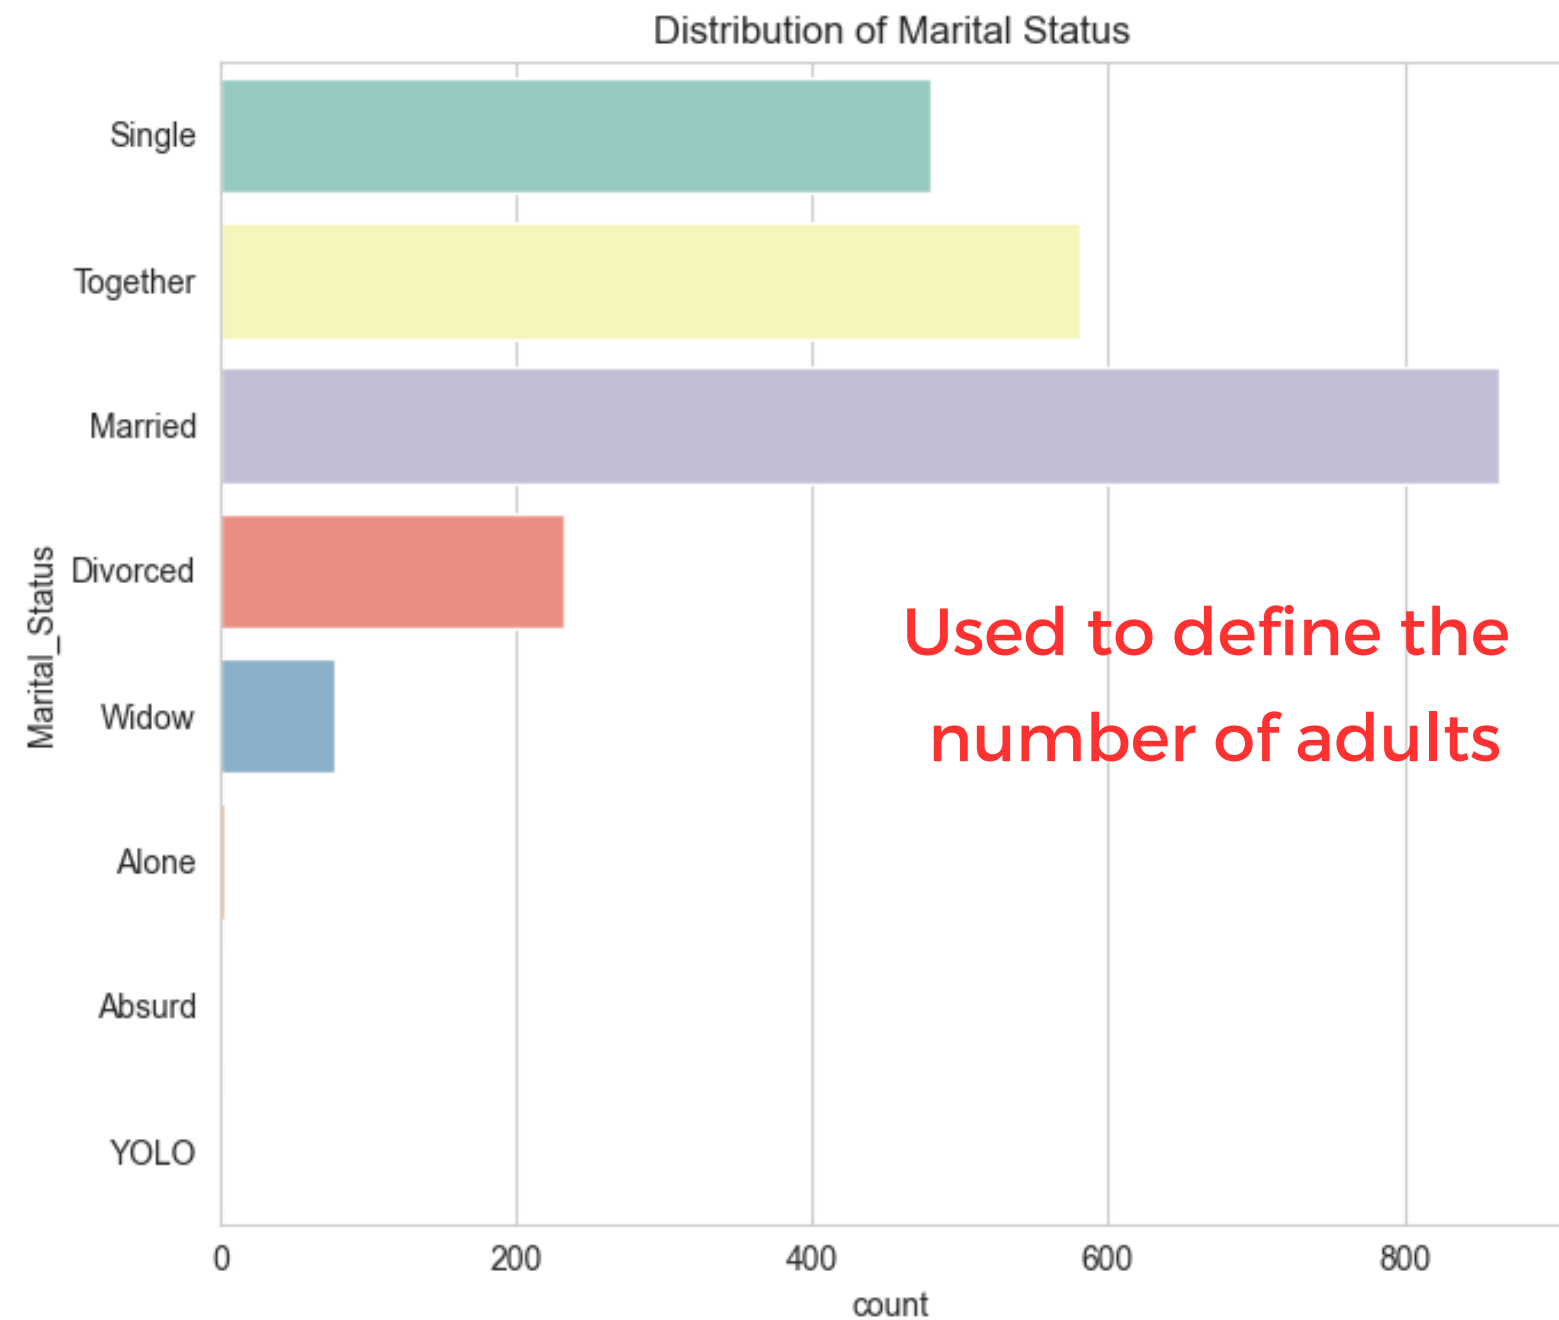

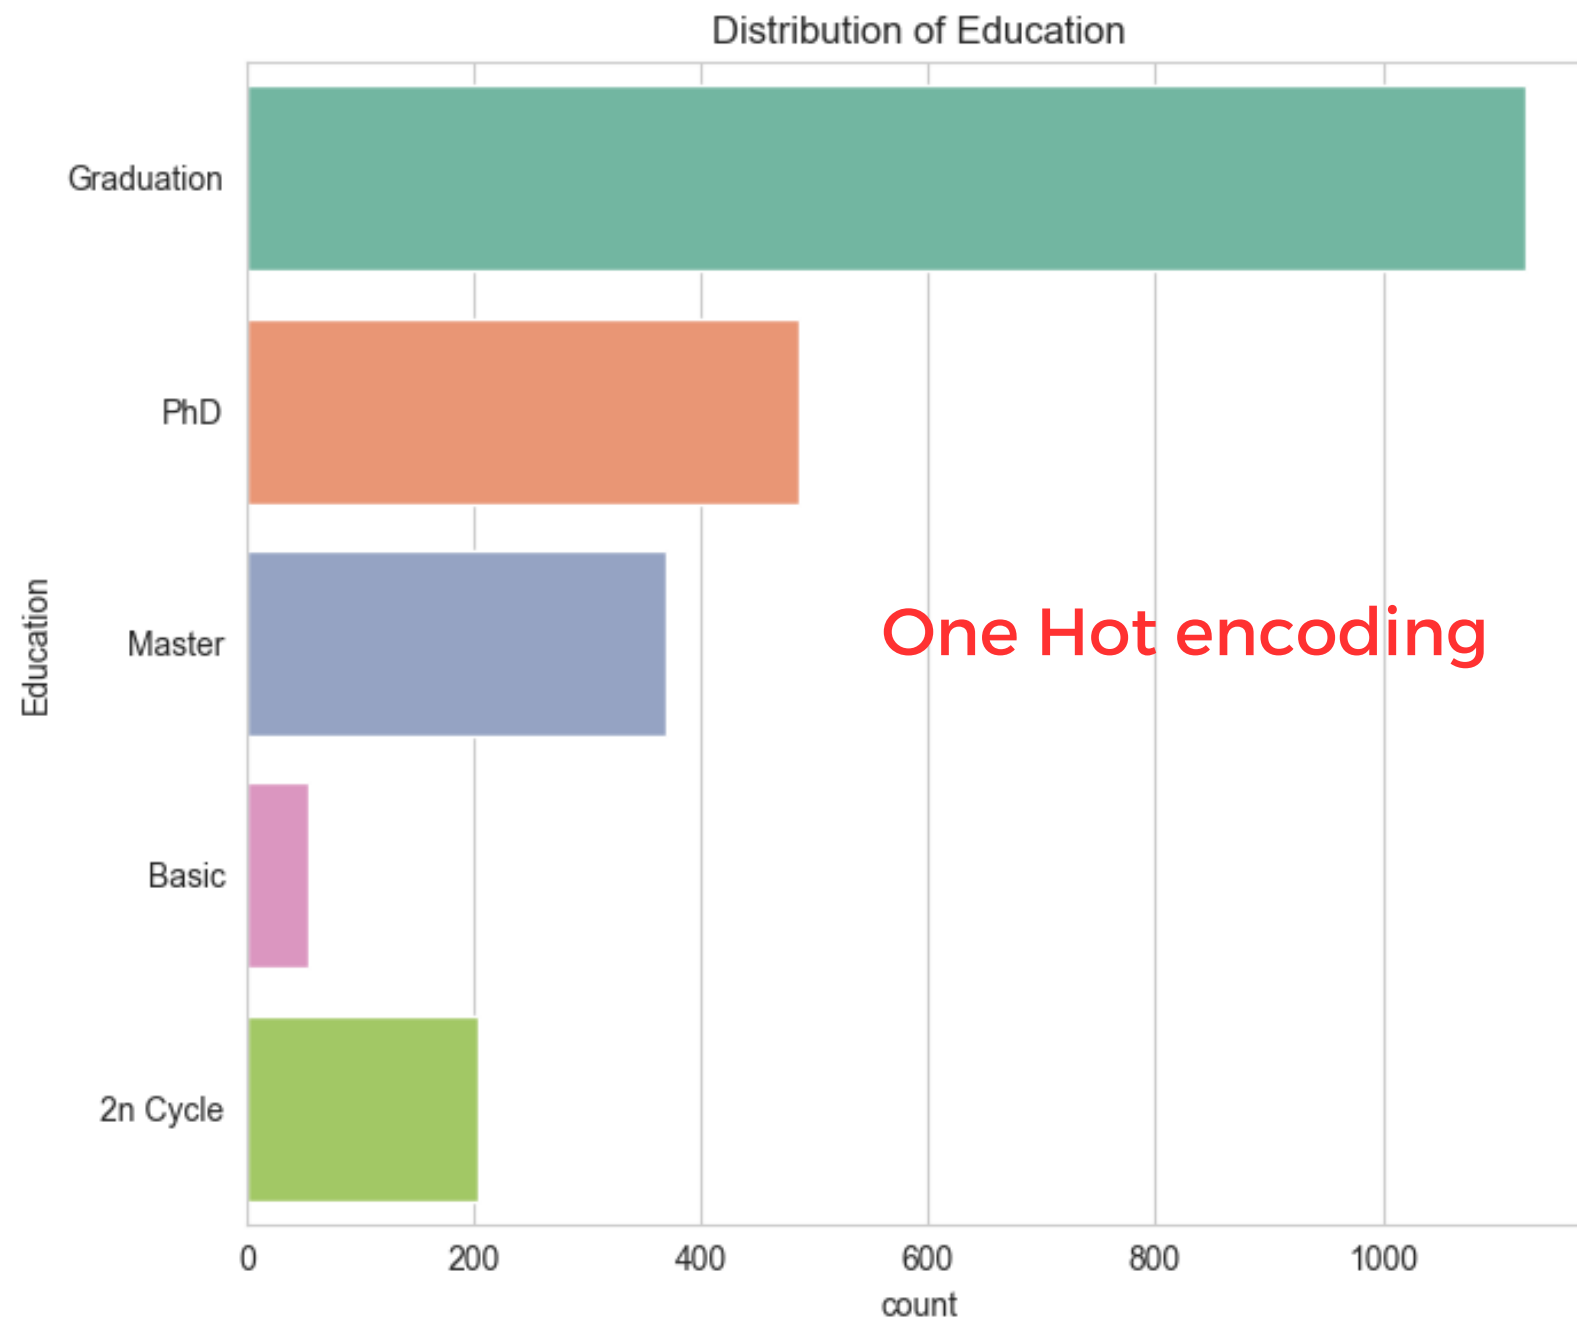

- Dt\_Customer
- Marital Status
- Year\_Birth
- Z\_CostContact
- Z\_Revenue

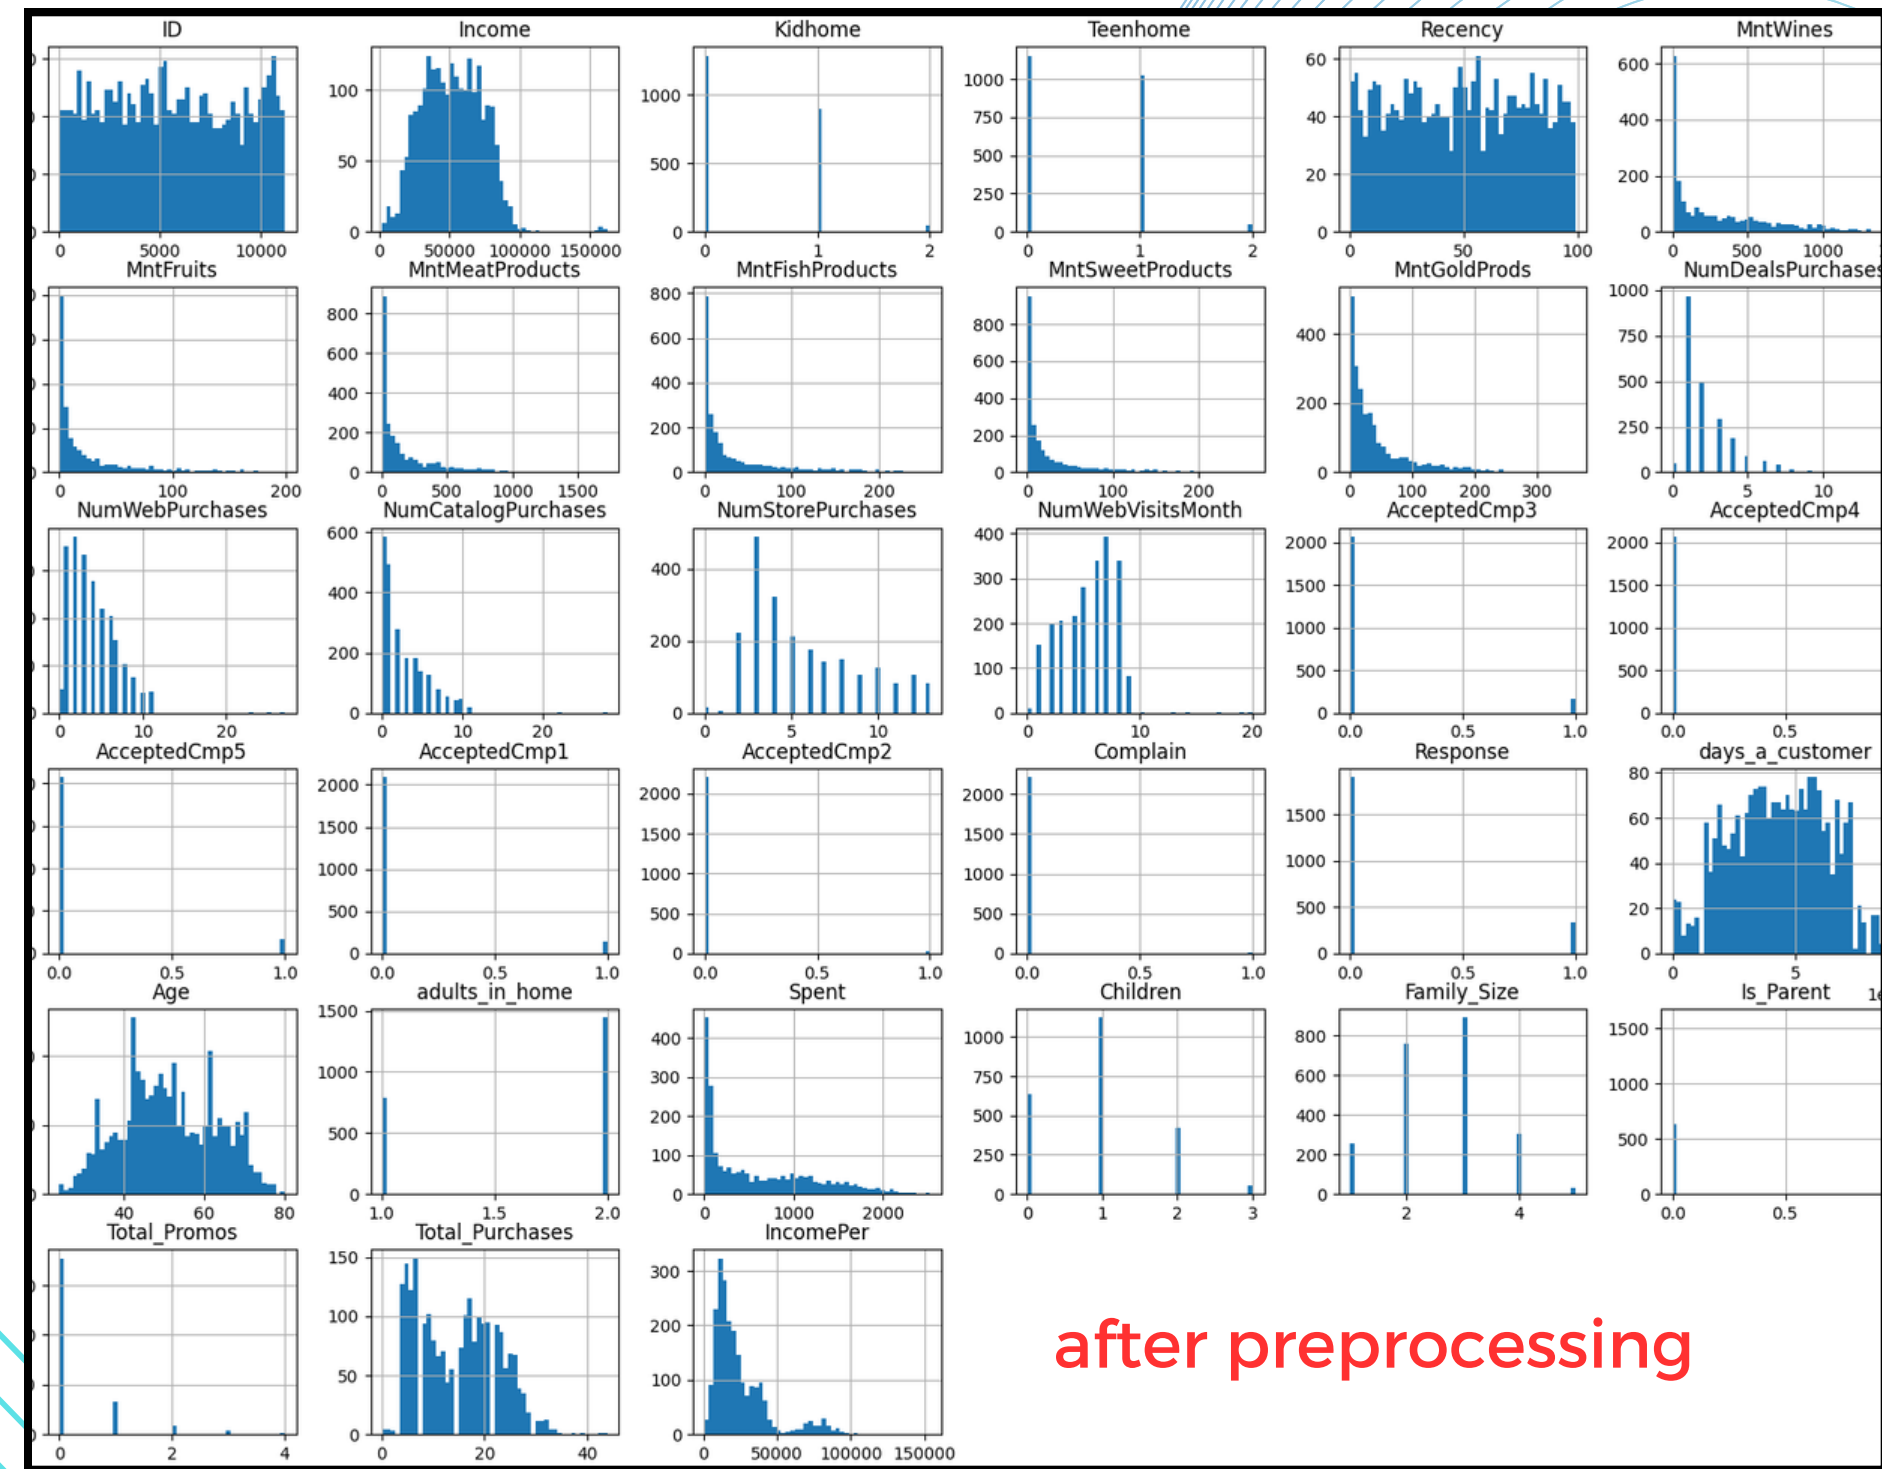

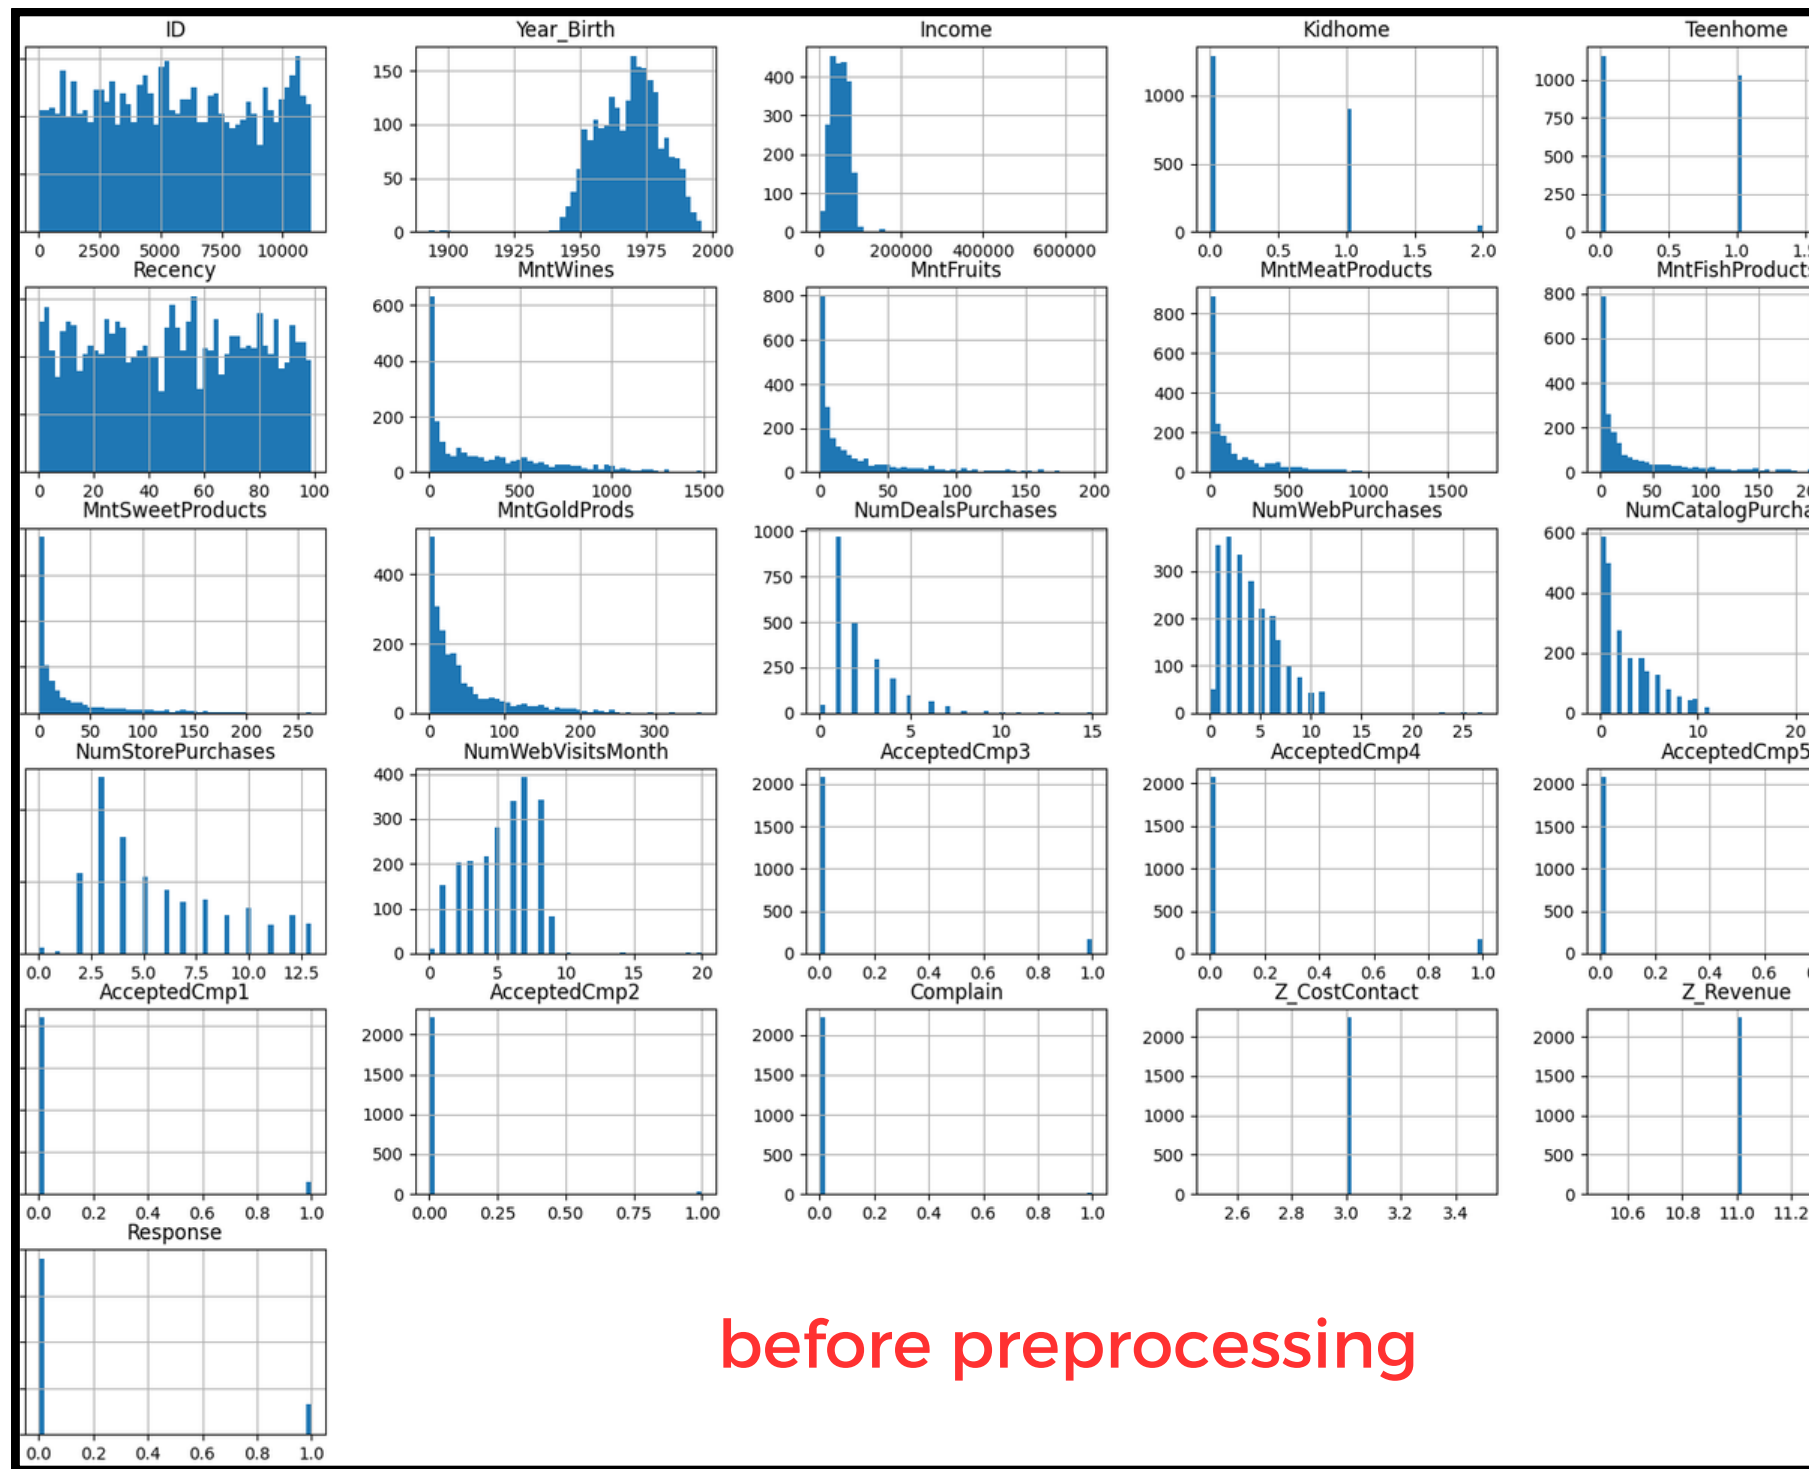

# DATA PREPROCESSING

## ENCODING CATEGORICAL VARIABLES

# FINDINGS

# FINDINGS

- The chart for Income per person is different than that of Income
- The chart for total spending is more similar to income per person rather than Income.
- replacing the null values with median can change the mean and so we decided to remove null values

# FUTURE STEPS

- Compare and find out the best cluster
- Finding the best marketing strategy for different customer segments
- Predicting the customer segment to which a new customer belongs to devise tailored marketing strategies.

# INDIVIDUAL CONTRIBUTIONS

- **Arash Nedaei Janbesaraei** Data Preprocessing, Peer Review
- **Zohreh Yousefi Dahka** Data Preprocessing, Research Plan
- **Kavinda Kulasinghe** Data Preprocessing, Presentation Preparation
- **Taufiq Ahmed** Data Preprocessing, Peer Review
- **Md Mobusshar Islam** Data Preprocessing, Presentation Delivery

**THANK  
YOU**
